

Dear **[PROPERTY MANAGER'S NAME]**,

I hope you are well. My name is **[YOUR NAME]** and I am a resident at **[PROPERTY FULL ADDRESS/ APARTMENT NUMBER]**.

I **[RECENTLY PURCHASED / PLAN TO PURCHASE]** an electric vehicle (EV). The ability to charge your car at home, rather than detouring regularly to refueling stations is a key benefit of driving an EV. I, therefore, want to discuss installing EV charging stations at our property and hope you can help me with my request.

Electric cars are becoming increasingly popular in the UK. With the government's pledge to ban all sales of new petrol and diesel cars by 2030, the 2020s will see an absolute explosion in EV uptake. By 2030, it will be the dominant mode of propulsion for cars.

This means that homes with EV charging will become far more important to the majority. I believe charging infrastructure will be a must-have for properties wanting to keep up to date and retain their desirability and value.

A new Government grant has been released this year to help offset the cost of installing this infrastructure. This new grant provides up to £30,000, per building on a site, towards the cost of installing charge point infrastructure.

I am sure you will agree that it would be great to take advantage of such an opportunity before it is fully utilized by others, as it does remove a significant barrier to EV Charging infrastructure.

A UK-wide EV charge point company, Bumblebee EV Ltd ([www.bumblebeeev.com](http://www.bumblebeeev.com)) has a huge portfolio of domestic, commercial, destination, and apartment-block installations. After some research, I believe they would be the best option to execute EV charging infrastructure. They also offer turnkey billing solutions designed for factors/property developers.

For the reasons outlined above, I hope you will consider offering EV charging at **[PROPERTY NAME]**. A Bumblebee representative is more than happy to speak with you about this. All you need to do is contact 0333 050 9863 or email [brian@bumblebeeev.com](mailto:brian@bumblebeeev.com)

Thank you in advance for your help and I look forward to hearing back from you.

Kind regards,

**[YOUR NAME]**
